## THE SIDEWALK QUESTION AGAIN

W. C. Jones Reiterates Former Statements in Answer to Chairman Zellus.

Pensacola, Fla., Feb. 19, 1906.  
Editor Pensacola Journal:  
I had the temerity a few days ago to call public attention, through your columns, to the abominable, disgraceful and DANGEROUS condition of the sidewalks of Pensacola—I say temerity, because the intelligent and well informed official citizens of Pensacola, to whom my communication was really addressed, knew that the existing condition of the sidewalks of Pensacola was chargeable to the negligence of the Board of Public Works, an organization which it were treason in certain circles, to criticize.

Mr. Alex Zellus, who by chance happens to be chairman of the Board of Public Works, eager to precipitate a newspaper controversy at the behest of ignorant advisers, plunged headlong into print, without investigating his subject. He got the worst of the fray in the first round, and like the growing man grasping at straws, he resorted to a trade of personal abuse of me, to divert public attention from his self-imposed embarrassment.

Poor Zellus! I am sorry for him; I regret his error of judgement; I regret that the necessity of self defense forced me to place him in his present indefensible position as a city official; but I decline to diverge a hair's breadth from my original intention of calling public attention to the disgraceful and DANGEROUS condition of the sidewalks of Pensacola; I propose to have this condition remedied; I decline to be drawn into a personal controversy with a city official whose acts are so indefensible as to leave him no ground to stand upon beyond an unwarranted tirade of personal vituperation.

The sidewalks of Pensacola are in an abominable condition of decay and neglect—every citizen of Pensacola knows that—and it is the SWORN duty of the Board of Public Works to remedy that condition.

The City Code specifically designates that within certain limits there shall be a certain tax levied and collected. Whoever heard of the suspension of the collection of taxes because, perchance, the collection might work a hardship on the property owner? In fact, is there any warrant of law for such procedure?

The same code that levies taxes, provides specifically that within certain limits, the sidewalks shall be maintained, this and so, and if not they shall be made (by the BOARD OF PUBLIC WORKS) to conform to the requirements of the code. Has the Board of Public Works any more right to suspend the operation of an ordinance requiring the construction and maintenance of sidewalks, than it has to suspend the operation of an ordinance requiring the collection of taxes?

The merchants and other business men of Pensacola are expending thousands of dollars annually to advertise their city, and to exploit to the world outside, its advantages and attractions—this in addition to their taxes, hence, it is a reproach to the powers within whose province it comes, that the present condition of our public ways should be maintained.

W. C. JONES.

No Case of Pneumonia on Record  
We do not know of a single instance where a cough or cold resulted in pneumonia of consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered.

## MAYOR ISSUES PROCLAMATION

WHICH PROVIDES FOR THE THROWING OF COURSE CON-FETTI, BUT PROHIBITS OBJECTIONABLE DEVICES.

Mayor Bliss yesterday issued the usual proclamation for the Mardi Gras celebration, which reads as follows:

Proclamation.  
Whereas His Royal Highness King Priscus VII. has given official notification that he will arrive on the royal yacht Rospen in Pensacola at high noon Monday, February 26, 1906, on his annual visit to his loyal subjects.  
Therefore, I, Chas. H. Bliss, Mayor of the City of Pensacola, proclaim two days revelry during the visit of His Majesty, February 26th and 27th, 1906, and permission is hereby given to all his subjects to throw coarse confetti upon all whom they admire and respect, but the use of dusters, rubber balls, canes and all other objectionable devices is strictly prohibited.

Given under my hand and seal this Nineteenth day of February, 1906.  
CHAS. H. BLISS,  
Mayor of Pensacola.  
C. E. MERRITT, Clerk.

DELUNA STREET IS NOW BEING IMPROVED

Improvements on Deluna street, the thoroughfare which was recently given this name and which was formerly known as Cushman's Alley, were commenced yesterday by the city, and it is the intention to keep a big force of men at work until the job is completed.  
The improvements upon the part of the city will consist of a sewer extending from Intendencia to Government streets, in order to properly drain the place, which has been a deplorable condition for many years. Excavations for the placing of this sewer are now being made.  
As soon as this is finished the owners of the property along the street will start the work of paving it.

Escaping Negro Captured Sunday at Flomaton  
Deputy Sheriff McCurdy, of Flomaton, made a good capture Sunday morning, when he arrested Percy Bachelor, the negro who attempted to cut the throat of D. S. White in the Gold Mine restaurant a few days ago and was only prevented from doing so by the interference of spectators.  
The negro took offense at some remarks made by White, who is night clerk at the place, and used his knife. He made his escape and has been at large since that date.

## Ausley & Co's Daily Cotton Letter.

New York, Feb. 19.—Liverpool sent her cables this morning unchanged on spot, sales of 10,000 bales, while cotton was two to three points lower, just about what the trade had expected reports stating that the spinner seemed disposed to buy and any indi-

cation of a good advance on this side would bring in heavy buying orders from Manchester and Lancashire but in the present state of affairs the spinner was inclined to play a waiting game as the Americans had shown more of a disposition to sell than to buy so far and there was a growing belief abroad that there was more cotton remaining to be marketed than the world had heretofore thought.

The Egyptians, who were so bullish earlier in the season, are covering their contracts and seem disposed to go short of the market while the continent is doing nothing. This in our estimation is simply making the situation more bullish as it is continually increasing the short interest which sooner or later must be covered. Of course considerably depends upon the size of the interest in the March option. We believe a considerable amount has been transferred to more distant months; however, there may be enough remaining to cause a marked decline were the tenders not properly and promptly taken care of, but we are afraid that the New York speculators who hold the long end will shy when it comes to taking the actual stuff and paying for it outright.

To offset the heavy movement of late and the bearish statements on Friday comes the universally encouraging reports from the trade centers. With the home trade showing great desire to purchase goods for spot and future delivery, and stating that they find great difficulty in obtaining many things they desire and stand in need of while the jobbers receiving an increased amount of business from all sections, the outlook for a substantial advance seems exceptionally bright.

We believe the market can be bought for a good advance and profits notwithstanding the misleading information that New York has been advised of during the past week that spinners demand was slackening. The large port receipts seem to be at the expense of interior stocks and we do not apprehend any special danger from this on that account.

New York private wires to-day had many reports about a strong new buying power coming into cotton; however, the market was inactive and dull and both sides seemed willing to wait for some further developments on which to base their action. Big New York room traders continue to absorb the cotton for some account and this has set the southern shorts to thinking and it would take very little to start a radical bull movement. We consider the short side a serious risk in proportions to the profits.
